Contents

Volume 16, Number 1, January 1989

Philip Stott: Editorial 1

Mark Williamson: Guest Editorial: The MacArthur and Wilson theory today: true but trivial 3

Distributional dynamics, past and present

Brian Huntley and Thompson Webb, III: Migration: species' response to climatic variations caused by changes in the earth's orbit 5

Jennifer Read and Robert S. Hill: The response of some Australian temperate rain forest tree species to freezing temperatures and its biogeographical significance 21

R. J. Fensham: The Pre-European vegetation of the Midlands, Tasmania: a floristic and historical analysis of vegetation patterns 29

Q. C. B. Cronk: The past and present vegetation of St Helena 47

H. F. Lamb, U. Eichner and V. R. Switsur: An 18,000-year record of vegetation, lake-level and climatic change from Tigalmamine, Middle Atlas, Morocco 65

Gina E. Hannon and Richard H. W. Bradshaw: Recent vegetation dynamics on two Connemara lake islands, western Ireland 75

Leif Kullman: Recent retrogression of the forest–alpine tundra ecotome (*Betula pubescens* Ehrh. ssp. *tortuosa* (Ledeb.) Nyman) in the Scandes Mountains, Sweden 83

Martine Diotte and Yves Bergeron: Fire and the distribution of *Juniperus communis* L. in the boreal forest of Quebec, Canada 91

Book reviews 97

Volume 16, Number 2, March 1989

C. Humphries: Guest Editorial: Any advance on assumption 2? 101

Zoogeographical patterns

Leslie S. Weissleader, Norman L. Gilinsky, Robert M. Ross and Thomas M. Cronin: Biogeography of marine podocopid ostracodes in Micronesia 103

Paul C. Buckland and Jon P. Sadler: A biogeography of the human flea, *Pulex irritans* L. (Siphonaptera: Pulicidae) 115

M. L. Luff, M. D. Eyre and S. P. Rushton: Classification and ordination of habitats of ground beetles (Coleoptera, Carabidae) in north-east England 121

Michael John Hutchison: The invasion of south-western Australia by the orange palmdart (*Cephrenes augiades sperthias* (Felder), Lepidoptera, Hesperiidae) and its positive effect on species richness 131

James G. Owen: Patterns of herpetofaunal species richness: relation to temperature, precipation, and variance in elevation 141

Max Abensperg-Traun and C. R. Dickman: Distributional ecology of red-capped plover, *Charadrius ruficapillus* (Temminck, 1822), on Western Australian salt lakes 151

Jean-Louis Martin and Jacques Lepart: Impoverishment in the bird community of a Finnish archipelago: the role of island size, isolation and vegetation structure 159

Torbjörn Ebenhard: Bank vole [*Clethrionomys glareolus* (Schreber, 1780)] propagules of different sizes and island colonization 173

Cesar N. Caviedes and Agustin Iriarte W.: Migration and distribution of rodents in central Chile since the Pleistocene: the palaeogeographic evidence 181

Michael R. Willig and Kyle W. Selcer: Bat species density in the New World: a statistical assessment 189

Book reviews 197

Short notice 200

Volume 16, Number 3, May 1989

C. A. Stace: Guest Editorial: Dispersal versus vicariance – no contest! 201

Biogeographica Americana

I. D. Hodkinson: The biogeography of the Neotropical jumping plant-lice (Insecta: Homoptera: Psylloidea) 203

J. J. Armesto and R. Rozzi: Seed dispersal syndromes in the rain forest of Chiloé: evidence for the importance of biotic dispersal in a temperate rain forest 219

Bruce M. Pavlik: Phytogeography of sand dunes in the Great Basin and Mojave Deserts 227

Biogeographica Americana

I. D. Hodkinson: The biogeography of the Neotropical jumping plant-lice (Insecta: Homoptera: Psylloidea) 203

J. J. Armesto and R. Rozzi: Seed dispersal syndromes in the rain forest of Chiloé: evidence for the importance of biotic dispersal in a temperate rain forest 219

Bruce M. Pavlik: Phytogeography of sand dunes in the Great Basin and Mojave Deserts 227

Steven P. McLaughlin: Natural floristic areas of the western United States 239

W. Keller and J. Roger Pitblado: The distribution of crustacean zooplankton in northern Ontario, Canada 249

Susan M. Glenn and Tom D. Nudds: Insular biogeography of mammals in Canadian parks 261

J. C. Hogenbirk and R. J. Reader: Biotic versus abiotic control of plant density: studies of *Medicago lupulina* L. on a topographic gradient 269

David J. Cooper: Geographical and ecological relationships of the arctic–alpine vascular flora and vegetation, Arrigetch Peaks region, central Brooks Range, Alaska 279

Book reviews 297

Volume 16, Number 4, July 1989

Philip Stott: A biogeographical short story: A dot on a map 301

Birds and beetles, montane mammals and megafauna

Luis M. Gonzalez, Fernando Hiraldo, Miguel Delibes and Juan Calderon: Reduction in the range of the Spanish Imperial Eagle (*Aquila adalberti* Brehm, 1861) since AD 1850 305

René W. R. J. Dekker: Predation and the western limits of megapode distribution (Megapodiidae; Aves) 317

S. Dillon Ripley and Bruce M. Beehler: Ornithogeographic affinities of the Andaman and Nicobar Islands 323

David L. Pearson and Kumar Ghorpade: Geographical distribution and ecological history of tiger beetles (Coleoptera: Cicindelidae) of the Indian subcontinent 333

M. J. Samways: Climate diagrams and biological control: an example from the areography of the ladybird *Chilocorus nigritus* (Fabricius, 1798) (Insecta, Coleoptera, Coccinellidae) 345

D. C. D. Happold and M. Happold: Biogeography of montane small mammals in Malawi, Central Africa 353

J. Robert Hunter: Seed dispersal and germination of *Enterolobium cyclocarpum* (Jacq.) Griseb. (Leguminosae: Mimosoideae): are megafauna necessary? 369

W. O. van der Knapp: Past vegetation and reindeer on Edgeøya (Spitsbergen) between *c.* 7900 and *c.* 3800 BP, studied by means of peat layers and reindeer faecal pellets 379

Book reviews 395

Short notice 400

Volume 16, Number 5, September 1989

Lynne R. Parenti: Guest Editorial: Fundamental biogeography 401

Environmental gradients in time and space

G. M. MacDonald and R. T. Reid: Pollen–climate distance surfaces and the interpretation of fossil pollen assemblages from the western interior of Canada 403

Robert J. Whittaker: The vegetation of the Storbreen Gletschervorfeld, Jotunheimen, Norway. III. Vegetation–environment relationships 413

R. M. Tipping: Devensian Lateglacial vegetation history at Loch Barnluasgan, Argyllshire, western Scotland 435

Toshiyuki Sato, George Grabherr and Kenji Washio: Quantitative comparison of fern-leaf development and fertility with respect to altitude in the Tirol, Central European Alps, Austria 449

Stanley R. Herwitz and Linda Olsvig-Whittaker: Preferential upslope growth of *Zygophyllum dumosum* Boiss. (Zygophyllaceae) roots into bedrock fissures in the northern Negev desert 457

D. M. D'Costa, P. Edney, A. P. Kershaw and P. De Deckker: Late Quaternary palaeoecology of Tower Hill, Victoria, Australia 461

R. K. Morgan: Chemotypic characteristics of *Thymus vulgaris* L. in Central Otago, New Zealand 483

Roger Flower and H. F. Lamb: Correspondence: The palaeoecology of the Middle Atlas, Morocco 493

Book reviews 495

Volume 16, Number 6, November 1989

I. G. Simmons: Guest Editorial: Green biogeography? 501

Tree-spreading in Europe and North America

H. J. B. Birks: Holocene isochrone maps and patterns of tree-spreading in the British Isles 503

F. M. Chambers and L. Elliott: Spread and expansion of *Alnus* Mill. in the British Isles: timing, agencies and possible vectors 541

B. Huntley, P. J. Bartlein and I. C. Prentice: Climatic control of the distribution and abundance of beech (*Fagus* L.) in Europe and North America 551

W. Carter Johnson and Thompson Webb, III: The role of blue jays (*Cyanocitta cristata* L.) in the postglacial dispersal of fagaceous trees in eastern North America 561

P. M. Anderson, P. J. Bartlein, L. B. Brubaker, K. Gajewski and J. C. Ritchie: Modern analogues of late-Quaternary pollen spectra from the western interior of Book reviews 597
